Republican party exhibit profound faith in the gullibility of the American people, and have launched the prospectus for the formation of the Cincinnati Con-solidated Bolters' Company, freighted with a most munificent and attractive inssortment of political professions. In the first place it appears that this new political stock company is so be doubled; that the new snip of State is to have two heads; that the Cincinnati Curvention is to be a quality—that is composed of two conventions, one to be alled the liberal Republican, and the other the regular and reform conventions in the state. assortment of political profe eunion and reform convention; in that the morgue, or house for the poli-tical dead, as Senator Morton designates the affair is to be divided into two apart-

The double convention will probably put forth one platform and one ticket; the proceedings of the two halves and of the united whole will serve for a nine days' popular wonder, and these party affairs will assume their usual train, and the presidential contest will be fought and decided with little reference to what was done or left undone at Cincinnati. The Democrats will find their candidates when the time comes rub up their party shield. time comes, rub up their party shield, and try their best to make it shine, and the Republicans will fight it out on their present line, with the Tribune to aid them, whether Greeley leads the column or not.—Roston Globs.

"No!" said Gi; honor bright; I haven't anything more to take to my uncle except a paper collar, and my landlord's dunning. But really, now!"

"Yes," replied C.; "this is the plan: I've found a man fool enough to lend me \$100. The great race between Long fellow and Helmbold comes off next week at Saratoga. We'll go; there'll be the heaviest kinds of odds bet on Longfellow, of course. I'll back Helmbold, and you'll be stakeholder. After the first bet you give me the stakes, and I'll bet the whole amount; make you holder again, take them again, bet again, and so on. Then we suddenly leave and divide the pile. See!"

Two Honest Men.

If New York is not funed for its honest men, it is not quite so bad as it might be, and it affords us pleasure to give an instance where two honests men prospered. It is a moral tale, and although it probably will not be cited in any Sanday School as instance of honesty being the best policy, still, it is true—this tale of our two Johns:

There are two Johns in the Fourth Ward. The last name of one begins with a G, and the surname of the other comurences with a C. They are chums. They are very sharp men, very; but as Mark Antony said in a peculiar way, they are "both honorable men." They were not long ago in a very musual condition known as "hard up." But by industry and integrity they had achieved a little competency. Thus: C. met G. one day in a bar-room, their usual resort, It was a temperance bar, of course.
